

AMENDMENTS TO THE SPECIFICATION:

Please replace the ABSTRACT with the ABSTRACT shown below, as amended:

~~This invention relates to a~~ coated granule ~~comprising~~including a core. ~~The core includes in the~~
core a uniform mixture of a detergent enzyme having an alkaline pH activity optimum, and at
least 10% w/w of an acidic buffer component. ~~The wherein said acidic buffer component has a~~
pH of 1 to below 7 when measured as a 10% aqueous solution ~~with~~and a pKa in the range of 4
to 9.
